

ELIKA™  
ACCESS SYSTEMS

# BLUETOOTH MOBILE APP

# BLUETOOTH APP

Gaining access to your property has never been easier. Ditch the cards and clickers, through BLE (Bluetooth) Technology, the app will wirelessly grant you access to your Elika System through your smart device. No longer will you have to enter codes or carry FOB's around. Simply have your Bluetooth on and pull up to your Elika system. Costly credentialed access is a thing of the past. Step into the future with Elika.

## Elika BLE Module

An add-on part that can upgrade any existing Elika system in the field. Quick and easy installation.

## Elika BLE App

User friendly smart phone app. Keep this app running in the background to grant you hands-free access as you enter within range of the Elika system.
